

SHOBHANA

Data Analyst | Python | SQL | Power BI | Excel

8210930134 | shobhana8210@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Noida, Uttar Pradesh

PROFESSIONAL SUMMARY

Detail-oriented Computer Science graduate with hands-on experience in data analysis, data visualization, and business intelligence. Proficient in Python, SQL, and Power BI, with a strong foundation in data cleaning, exploratory data analysis (EDA), dashboard development, and ad-hoc reporting. Skilled at data storytelling and translating raw data into actionable business insights that support data-driven decision-making. Seeking a Data Analyst role to apply analytical, technical, and reporting expertise in a fast-paced business environment.

SKILLS

Programming Languages: Python, SQL

Data Analysis: Pandas, NumPy, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis, Trend Analysis

Data Visualization & BI: Power BI, Excel (Pivot Tables, VLOOKUP, Power Query), Matplotlib, Seaborn, Dashboard Development, Ad-hoc Reporting

Machine Learning: Scikit-learn, Regression Modeling, Feature Engineering, Model Evaluation (R-squared, MAE)

Databases: SQL, PostgreSQL, SQLite, Relational Databases

Tools: Git, GitHub, Jupyter Notebook, VS Code, MS Excel

Core Competencies: KPI Reporting, Customer Segmentation, Data-Driven Decision Making, Data Storytelling, Business Intelligence, Stakeholder Reporting

PROJECTS

Retail Sales Analytics | Python, SQL, SQLite, Pandas, Matplotlib, Seaborn | [GitHub](#)

- Analyzed 2 years of retail transaction data (8,000+ orders, 14,000+ line items) using SQL and Python to identify revenue trends and profitability drivers
- Modeled relational data across customers, products, orders, and order line items into a SQLite database for structured querying
- Wrote 12+ SQL queries using joins, CTEs, and window functions to analyze month-over-month revenue growth, discount impact on margins, and customer lifetime value
- Performed exploratory data analysis in Python (Pandas, Matplotlib, Seaborn) to visualize seasonal trends, category performance, and regional sales patterns
- Delivered data-driven recommendations on discount thresholds and regional strategy based on a 33.7% overall profit margin analysis

Customer Behavior Data Analysis | Python, SQL, Power BI, PostgreSQL | [GitHub](#)

- Analyzed a dataset of 1,000+ customer records using Python (Pandas, NumPy) and SQL to uncover purchasing trends
- Performed data cleaning and preprocessing, handling missing values and outliers to improve data quality
- Conducted exploratory data analysis (EDA) to identify purchasing patterns and customer segmentation
- Designed and executed SQL queries in PostgreSQL to extract actionable business insights
- Built an interactive Power BI dashboard to visualize KPIs, trends, and customer segments
- Identified high-value customers and seasonal demand patterns to support data-driven business decisions

PROFESSIONAL EXPERIENCE

Machine Learning Trainee | Sensation Software Solutions, Mohali, India

Jun 2025 – Jul 2025

- Analyzed datasets and developed machine learning models using Python and Scikit-learn
- Performed data preprocessing, feature engineering, and model evaluation to improve accuracy
- Improved model performance based on evaluation metrics and iterative testing

Data & Client Solutions Intern | Software Services & Solutions, Patna, India

Jun 2024 – Jul 2024

- Gathered and analyzed client requirements to develop data-driven technical solutions
- Analyzed user feedback data to identify trends and enhance product usability
- Built structured datasets and ad-hoc reports using Excel (Pivot Tables) for internal tracking
- Collaborated cross-functionally with teams and stakeholders to ensure timely and accurate project delivery

Web Development Trainee | Acmegrade, Remote

Jun 2024 – Jul 2024

- Developed a fully functional shopping website using HTML, CSS, and JavaScript, improving UI/UX design and overall user experience

EDUCATION

Bachelor of Technology in Computer Science and Engineering | DAV University, Punjab, India

2022 – 2026

GPA: 7.5/10 | Coursework: Data Structures, Algorithms, DBMS, Machine Learning, Data Analysis

Senior Secondary (Class XII) – Science (PCM), 79% | DAV Public School, Bihar

2022

Secondary (Class X), 78% | DAV Public School, Bihar

2020

ACHIEVEMENTS

- Participated in BharatTechXperience Hackathon 2.0 and HACK-A-THONIC 2.0; completed MERN Stack and Flutter Workshop
- Actively participated in college-level technical events and coding competitions
